## PROFESSIONAL SUMMARY

---

**Frontend / React Developer** with 3+ years of experience building scalable web applications, achieving an average of 30% faster load times across 5+ projects, utilizing React performance optimization techniques, resulting in improved user satisfaction and engagement through targeted UI optimization strategies and performance tuning across multiple projects. Played a key role in developing reusable React components and integrating REST APIs across application modules. Strong expertise in **React.js, JavaScript (ES6+), HTML5, CSS3, React Hooks, Axios, and SPA development**. Additional practical exposure to MERN stack development through independent projects and certification, focused on clean architecture, scalability, and maintainable UI solutions.

## TECHNICAL SKILLS

---

**Frontend Skills:** React.js, JavaScript (ES6+), HTML5, CSS3, React Hooks, Context API, Redux Toolkit, Axios, Fetch API, Single Page Applications (SPA), Component-Based Architecture,

Responsive Web Design, Cross-Browser Compatibility, React Router, UI Optimization & Performance Tuning, Lazy Loading & Code Splitting, Tailwind CSS, Bootstrap, Material UI (MUI), Flexbox, CSS Grid, Reusable UI Components,

**Backend:** Node.js, Express.js, RESTful APIs, API Integration, JWT Authentication, Authentication & Authorization, RBAC, Middleware, MVC Architecture, Environment Variables, Error Handling, Basic API Security, Request Validation

**Database:** MongoDB, Mongoose, MySQL, Schema Design, Data Modeling, CRUD Operations

Basic Indexing, Query Optimization,

**Tools & Platforms:** Git, GitHub, Postman, VS Code, Chrome DevTools, NPM, Netlify, Vercel, Render, Deployment & Hosting, Package Management, Deployment & Hosting,

**Methodologies & Development Practices:** Agile / Scrum, Debugging, Performance Optimization, Clean Code Practices, Code Refactoring, Version Control, Scalable Application Development, Feature Enhancement, Bug Fixing,

**Professional & Soft Skills:** Communication, Team Collaboration, Problem Solving, Analytical Thinking, Time Management, Adaptability, Requirement Understanding, Stakeholder Coordination, Ownership & Accountability, Continuous Learning

## WORK EXPERIENCE

---

### Frontend Developer — Bee Logical Software Solutions | Mar 2022 – Apr 2023

- Built interactive dashboards using React, HTML5, CSS3, and JavaScript, that supported over 5 business modules, improving user engagement by 15%.
- Implemented Context API for state management, reducing prop drilling and improving maintainability across multiple application modules
- Integrated backend APIs and enhanced application responsiveness, improving page load speed by ~20%
- Collaborated with backend and QA teams during Agile sprints, contributing to 100% on-time sprint deliveries
- Resolved UI bugs and performance issues, leading to a ~25% reduction in defects

### Frontend Developer — Hogarth Worldwide | Apr 2020 – Feb 2022

- Developed responsive web interfaces using React.js, ensuring cross-browser compatibility across modern browsers and screen resolutions
- Built 10+ reusable UI components following enterprise brand standards
- Integrated REST APIs and handled dynamic data rendering across 10+ pages and UI views
- Improved UI consistency and maintainability, reducing QA rework by ~15–20%

## **Independent Projects & Professional Practice -2023-present**

- Developed frontend and MERN stack applications using React, Node.js, Express, and MongoDB
- Implemented authentication and CRUD operations across 3+ project modules
- Deployed applications using Vercel, Netlify, and Render
- Engineered a secure JWT-based authentication system that safeguarded sensitive user data and ensured compliance with industry standards; strengthened authentication flows, significantly reducing unauthorized access risks, bolstering user trust and system integrity.

## **PROJECTS**

---

### **Personal Finance Manager (MERN Stack)**

- Built a full-stack expense management application
- Features include authentication, income & expense tracking, category management
- Implemented CRUD operations and JWT-based security

### **E-Commerce Application (React)**

- Developed product listing, cart functionality, and search features
- Implemented responsive UI and optimized frontend performance

### **Movie Application (React)**

- Integrated third-party APIs for movie listing and search
- Built dynamic and responsive UI using React.js

## **CERTIFICATIONS**

---

### **Full Stack Development Certification, GUVI (IIT-M Incubated)**

Completed: June 2023

Technologies: React.js, Node.js, Express.js, MongoDB

## **EDUCATION**

---

### **Bachelor of Engineering (Computer Science)**

Coimbatore Institute of Engineering and Technology, Coimbatore, India

Graduated: May 2016 GPA: 7.5
